

**All models feature:** adjustable DC output voltage 1.2 to 30 VDC @ 3 Amp / 15 watt Max., Short Circuit/Over Temp Protected, 94% efficient

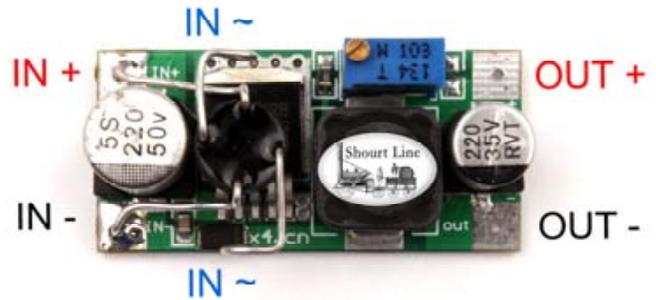

**SL 8552403** Weatherproof Throttle & LED controller **\$39.95** AC, DC or DCC input + full wave rectifier + screw type terminal wiring blocks + case (Easy wiring - no soldering; for loco, car, layout accessories and lighting)

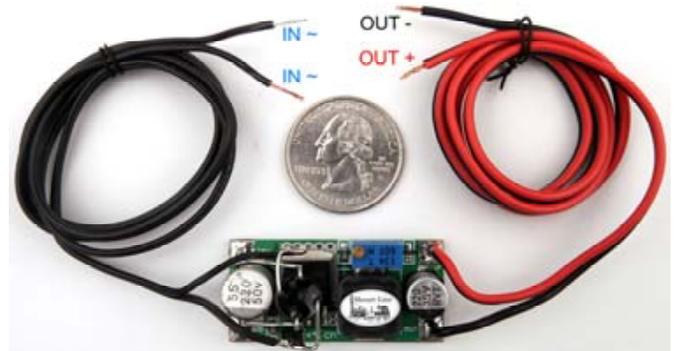

**SL 8452403** Precision Train Throttle & LED controller **\$ 6.29** DC powered & solder connections, for loco, car and layout lighting)

**SL 8453003** Precision Train Throttle & LED controller **\$ 8.49** AC,DC or DCC powered + full wave rectifier & solder connections, for loco, car, layout accessories and lighting

**SL 8453203** Precision Train Throttle & LED controller **\$ 9.95** AC, DC or DCC input + full wave rectifier + 3M mounting pad + 24 in. black input and red/black output cables for motor, loco, car, layout accessories and lighting

**SL 8453303** Precision Train Throttle & LED controller **\$ 9.95** AC,DC or DCC input + full wave rectifier + 3M mounting pad +10 ft. black input & 3 in. red/black output cables for layout accessories, motors, crossing guard, lighting and analog auto-reverse modules

**SL 8453403** Precision Train Throttle & LED controller **\$ 10.95** DC input + screw type terminal wiring blocks for easy motor, loco, car, crossing guard, layout accessories and lighting
